

Austrian Meeting of Myrmecologists

Monday, March, 7th 2011
Faculty Centre of Biodiversity
Rennweg 14, A-1030 Vienna

Preliminary program

- | | |
|-------|---|
| 9:00 | Arrival, Coffee |
| 10:00 | Welcome:
Univ.-Prof. Mag. Dr. Konrad Fiedler
1 st PART – Myrmecological Research |
| 12:30 | Lunch |
| 14:00 | optionally: 1 st PART (contin.)
2 nd PART – Native Ant Fauna |
| 15:30 | Coffee Break |
| 16:00 | 2 nd PART (contin.) |
| 17:30 | Departure |

Background:

Myrmecology has a long tradition in Austria, and frequently meetings or associations took place (last in 2002).

This meeting offers now again the possibility to meet other myrmecologists and to get to know their fields of work. Myrmecologists from surrounding neighbouring countries are invited as well. Furthermore, the meeting is open for interested guests from forestry or nature conservation to stimulate potential co-operations.

Intention:

- Meeting of myrmecologists from Austria and surrounding regions
- Overview of the myrmecological research in Austria and surrounding regions
- Knowledge of the native or regional ant fauna
- Stimulation of co-operations and joint projects

1st PART:

Talks concerning the myrmecological scientific research in Austria and surrounding neighbouring countries. This research often comprises more than the native ant fauna. This first part aims to demonstrate the variety of the local myrmecological research.

2nd PART:

Talks concerning the native ant fauna, e.g. regional species richness, rare or special species and possible means of conservation could be presented. Guests from forestry, environmental organisations, national parks, or similar institutions are welcome particularly to this part!

Language:

Talks and abstracts: alternatively in German or English.
Talks of the second part preferably in German!

Location:

Faculty Centre of Biodiversity, University of Vienna, Lecture room
Rennweg 14, A-1030 Vienna
www.botanik.univie.ac.at

Deadlines:

Registration of talks: January, 31st 2011
Please include title and allocation of your talk to the first or second part

Abstract submission: February, 14th 2011

Registration (participation): February, 14th 2011

Registration, contact, and further information:
